Joe,  
Adam was removed at a legal CC meeting. He is attempting to ignore the meeting and it's results

All related to his Candidacy for Sparks City Council I'm sure

His two biggest lies so far are

He knew nothing about the meeting ???

Barbara Hawn the secretary that resigned sent the notice of the meeting with Adam's consent. I just emailed you a copy. He then tried to cancel the meeting but he had no authority under the bylaws ( which he always chooses to ignore ) to cancel and many people called him on that. He press statement that he knew nothing about the meeting was absolute lie

He claimed in interview that only 46 members out of 600 were at the meeting. Truth is that since the convention we now have over 600 members but at the time of the meeting there were under 350 members. Around 200 members never or seldom attend meetings. Average attendance is around 100 members. Ten percent is a quorum. We had well over a quorum. The meeting was a little light because he was successful in confusing some members by trying to cancel it. Never the less it was a legal meeting.

Many members are in the process of calling for another investigative committee this time to remove Adam from the CC

Will send more documentation as I have time !!

Hi Joe,

I'll find out from Gary and let you know. Thanks for your continued interest in this case. I see the Nevada revolt made the Breitbart News and was reported to be favorable to Donald Trump.

Hi Chuck,

Can you tell me what happened with that 46-0 vote to oust Adam Khan as chairman? He is still chairman so I'm trying to find out what happened with that vote?

Thanks,  
Joe
